PLANS TO AVERT FUEL FAMINE NEXT WINTER

Washington, Feb. 27.—The domestic consumer of coal will not be confronted next winter with a repetition of this year's fuel shortage, according to plans now being worked out by Fuel Administrator Gar-

field.

The survey of the domestic consumers' needs in communities throughout the country, which is being made by the fuel administration's investigators, was about completed today and a report will be made in a short time.

Officials of the fuel administration made it clear today that regulations for the distribution of fuel for domestic use to prevent hoarding profiteering, or manipulation calculated to create an artificial shortage, will be promulgated soon after the report of the survey is made.

THE BAPTIST OYSTER SUPPER.

The Oyster Supper given by the church for the men of that membership proved to be one of the most delightful events socially in the church's life this year. About 50 men gathered around the table and enjoyed a most delicious supper prepared by the ladies. Victrola music was enjoyed and an evening of social freedom and enjoyment had, that those present will not soon forget.

After supper, the pastor conducted a round table at which the question was discussed "What can be done to advance our church?" The senior deacons were introduced and each made an apt talk. The Junior deacons were then introduced and each member spoke along practical lines. Other members followed with short speeches. By this time there was much enthusiasm and the lines of thought made most prominent were: Building up our Brotherhood Class by more faithful attendance; and, The Immediate paying off of about \$3,000 indebtedness. It was pointed out that if this indebtedness could be now met, the church would be in a most magnificent financial condition. At the suggestion of one of the deacons, a motion was made and carried that we proceed at once to such liquidation. In a very few minutes there were between \$1500 and \$1,600 dollars pledged and a committee appointed to meet Wednesday night after prayer meeting and make a sweeping campaign for the rest of the desired sum. With such enthusiasm, consecration of purpose, and gladness in sacrifice, success is assured and the church moves into her brightest, happiest era.

The ladies were not forgotten, and a rising vote of thanks for their splendid efforts in preparing the supper was accorded with hearty applause.

FEDERAL FARM LOAN BOARD DOES NOT EMPLOY ASSOCIATION ORGANIZERS

News of schemes to swindle farmers by men advertising to be authorized farm-loan association organizers is met by the statement by the Federal Farm Loan Board that organizers are not employed.

In order to borrow money under the farm-loan act, farmers must organize co-operative national farm-loan associations in their local communities. It is a violation of a ruling of the Farm Loan Board for a national farm-loan association or a joint-stock land bank to spend money for promotion purposes.—Weekly War News Digest.

COMPULSORY ATTENDANCE.

In the Hampton Guards of the former First South Carolina regiment, were 35 boys who couldn't read and write, and C. P. Hammond, of Spartanburg, sent each one a set of school books. It is stated that every one of these men has since learned to write, and that every one recently, for the first time, was able to sign the pay rolls. That's a big thing the army is doing. Some of these boys might have been in school if certain "Reformers" had not opposed compulsory attendance upon schools.—Columbia Record.

Economy Your Watchword Purity Your Standard

Your Uncle Sam wants you to be as saving as possible in the matter of Food, but there is not a citizen of these good old United States that he wants to go hungry.

In the matter of Conservation of food, remember this: The Best goes the longest way. You cannot economize by using the cheapest food products obtainable. Highly nourishing food comes higher in price and is the cheapest in the long run.

Feed your family from our store. We are constantly on the watch out for the best from every viewpoint. If it is pure and wholesome and at the same time highly nourishing, we have it. 'Tis the very best way to economize.

our supply of chicken meat. Investigators have found that because poultry brings 2 cents a pound more in winter than in late spring, many farmers in the South have been throwing away valuable egg profits just to get 8 cents more per hen. They believe that if farmers will keep their laying hens and sell their eggs and then market the birds in the late spring, they will not only add to the food supply, but actually increase their profits 50 cents per hen.
